New Business:

Consider and address recently adopted Senate Enrolled Act 213 addressing Small Cell Facilities

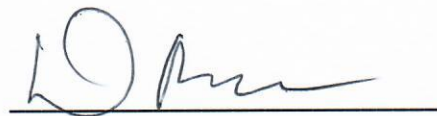

Stephen reported that Senate Enrolled Act 213 amends State Legislation to allow Small Cell Companies to put their utilities in the right-of-ways. The law states local municipalities may not regulate or require virtually anything from a Company that is wanting to put up a small cell facility within the right-of-way, unless you have designated those areas prior to May 1, 2017, an area strictly for underground buried utilities. David thought that all facilities should be underground in existing sub-divisions within the Town. Stephen stated Section 3 of the Resolution provides for a waiver to install new Above Ground Facilities to be considered by the Council. Stephen presented Resolution No. 2017-001 Designating Areas for Strictly Underground and Buried Utilities. David made a motion to adopt Resolution No. 2017-001 Designating Areas for Strictly Underground and Buried Utilities, Steve 2nd. All in favor. Motion passed 4-0.
