

Town Council Agenda

Minutes

Thursday, June 17, 2021 at 7:00 pm

Trafalgar Council Members:

Jessica Jones - President

Jason Ramey - Vice President

Jeff Eisenmenger - Member

Steve Scott - Member

Kyle Siegfred - Member

Notice --You are welcome to attend the meeting via Zoom. There will be limited seating at the meeting. The audio recording will be published after the meeting or you can join by the information below.

You are invited to a Zoom webinar.

When: Jun 17, 2021 07:00 PM Eastern Time (US and Canada)

Topic: Public Wastewater Hearing/Town Council Meeting June 17, 2021

Please click the link below to join the webinar:

1. Call to Order and Roll Call

Minutes:

The Trafalgar Town Council Meeting was called to order at 7:00 p.m. Present: Jessica Jones, Jeff Eisenmenger, Steve Scott, Kyle Siegfred. Donna Moore - Clerk Treasurer, Bill Barrett - Town Attorney. Absent: Jason Ramey.

2. Pledge of Allegiance

Minutes:

Jessica Jones lead the Pledge of Allegiance

3. Wastewater Project - PUBLIC HEARING - 7P

Minutes:

The Wastewater Public Hearing minutes will be submitted by Kristy Jerrell - Jerrell Consulting.

1. Call to Order: Town Council President, Jessica Jones, formally called the Public Hearing to order at approximately 7:00 pm. 2 Facilitator: Kristy Jerrell, Grant Administrator from Jerrell Consulting & Grant Administration Services LLC.
2. Discussions: a. Kristy Jerrell presented and explained that the Town of Trafalgar is applying to the Indiana Office of Community and Rural Affairs (IOCRA) for a Community Development Block Grant (CDBG) to fund a Water Improvements Construction Project which will benefit the entire Town's wastewater system. She explained that in order to apply to the CDBG program, the applicant must be a non-entitlement City, an incorporated Town or a non-urban County. b. Kristy Jerrell stated that per the new Indiana CDBG Handbook released in May 2019 and then revised August 2019, each public hearing is required to have the following content to educate and inform the local residents about the project. She stated that the public hearing is an opportunity to educate and inform local residents about the project and it also provides a forum for citizen input. She went over the following required content: Goals and objectives of the CDBG program:

Kristy Jerrell stated that the primary objective of the CDBG program is to develop viable communities by helping to provide decent housing and suitable living environments, and expanding economic opportunities principally for persons of LMI. She stated that to achieve these goals, the CDBG regulations define eligible activities and the National Objectives that each activity must meet. She stated that, IOCRA (as the recipient of CDBG funds), is charged with ensuring that each project funded meets one of the National Objectives listed next and that the project is an eligible activity. She stated the three National Objectives are: benefit to LMI persons, prevention of elimination of slums and blighted conditions and urgent need projects. She stated that this project is qualifying under benefit to low-and-moderate income (LMI) persons from a recently completed income survey resulting in 66% (LMI). She stated that the income survey was completed on 6-20-20 and IOCRA approved the Town to utilize the income survey for Round I 2021 on 4- 1-21. Total amount of CDBG funds available: Kristy Jerrell stated that IOCRA does not reveal how much money is available for each particular round. She stated that Round I 2020 a total of 19 water/wastewater projects

were funded totaling \$12,296,233, Round II 2020 a total of 9 water/wastewater projects were funded totaling \$6,200,000. She stated that according to the State of Indiana's Updated 2020 Method of Distribution - the allocation of for IOCRA CDBG WOW program, there is a total of \$14,000,000 IOCRA CDBG dollars that are allocated to fund water/wastewater projects per the method of distribution of that plan for FY 2020. She stated IOCRA is able to move monies around to fund more or less. She also stated that both the FY 2019 and FY 2020 Action Plans are both in the process of amendment. On the FY 2020 Action Plan MOD: Amendment 3, it states \$14,000,000 for water/wastewater projects on page 3 under use of funds, but then it states \$11,000,000 for water/wastewater projects on the bottom of page 6 and then states \$11,500,000 on the top of page 7- so not really sure how much IOCRA is allocating towards water/wastewater project for Round 1 2021.

Community development and housing needs of the applicant: Kristy Jerrell stated that the community development needs of the Town of Trafalgar is to continuously improve upon all services in the Town especially wastewater issues, thus the reason for applying to IOCRA for this vital water improvements construction project. She also stated that it is always the Town's objective to meet the housing the community development needs of the residents especially the LMI persons. She stated that public meetings and this required public hearing tonight is one way that the community assesses the housing, public facility and economic needs of the residents and LMI residents. Proposed activities for the project and the amount to be requested: Kristy Jerrell stated that the total project cost is \$5,682,000. She stated that the proposed activities for the project are water improvements construction related and \$700,000 will be requested from IOCRA in CDBG grant funds. Proposed amount of funds to be used to benefit low- and moderate-income people: Kristy Jerrell stated that \$462,000 of the \$700,000 IOCRA grant funds will be used to benefit the 66% LMI persons. Amount and source of local funds to be expended on the project: Kristy Jerrell stated that the Town will be utilizing \$4,982,000 in local funds: (1) \$5,000 in previously paid environmental review and (2) \$4,977,000 in IFA/SRF low interest loan funds. She stated that the final public hearing ad and the IOCRA final grant application will add in local match amount the \$11,000 of previously paid preliminary engineering. NO AMERICAN RESCUE PLAN (ARP) ACT FUNDS WILL BE UTILITZED TOWARDS THE LOCAL MATCH OF THIS PROJECT.

Notification of any displacement resulting from the proposed activities or Notification of No Displacement: Kristy Jerrell stated that this project will result in NO displacement. c. Kristy Jerrell stated again that the total project cost for this project is \$5,682,000 and the Town will be committing a total of \$4,982,000 in local match and requesting an IOCRA grant in the amount of \$700,000. NO AMERICAN RESCUE PLAN (ARP) ACT FUNDS WILL BE UTILIZED TOWARDS THE LOCAL MATCH OF THIS PROJECT.

d. Kristy Jerrell stated that she electronically submitted the proposal, on the online Grants Management System, to IOCRA on/before 4-29-21 and the final application will be submitted on or before either 6-25-21 with grant awards to be announced on 8-12-21. e. Kristy Jerrell stated that there are two funding rounds this 2021 year for CDBG water/wastewater projects. She stated that these rounds are highly competitive and if

the grant is not awarded on 8-12-21, then the Town can apply for Round II 2021 which the proposal will be due on 9-23-21 and the final application will be due on 11-12-21 with grant award announcements on 12-16-21. f. Kristy Jerrell explained the scoring criteria in which the project is looking at and will be scored on: (1) 66 points out of 100 points for National Objective (completed income survey). (2) 64.08 points out of 175 points for community distress points; Kristy Jerrell stated it is several items such as unemployment rate, medium household income, Labor force participation, etc. She stated it is a data already set. (3) 75 points out of 75 points in local match contribution (\$5,682,000 total project cost with \$4,982,000 in local match); \$11,000 of previously paid preliminary engineering will be added to this local match amount for the final application. (4) hopefully, at least 184.57 points out of 300 points on the Project Design Factors which are the narratives in the application; she stated that the Town must receive at least 184.57 points on the narratives to meet the minimum score of a total of 450 out of 700 to even be awarded but a higher score is really needed on the narratives section to actually be awarded the grant due to the highly competitive projects that the application will be competing against. (5) 35.35 points out of 50 points for project sustainability which is 10.35 points for financial gap and 25 points for project sustainability for a total of 35.35 out of 50. She stated that the Town's combined rate is \$114.00 breaking down to \$50.01 for 4,000 gallons for water, \$58.99 for sewer for 4,000 gallons and a \$5.00 stormwater rate. (6) 25 points out of 25 points for BONUS POINTS; emailed IOCRA's Matt Wakefield on 3-29-21 requesting the 25 Bonus Points and approved on 4-1-21. (7) Kristy Jerrell stated that the application will receive no point reduction for this project as this is the first time, within the past 5 years, that the Town would be applying for/hopefully receiving a grant award in this category for water construction. Kristy Jerrell then turned the meeting over to the Project Engineers from Curry & Associates, Lori Young and Jill Curry, to explain the details of the Wastewater Improvements Construction Project. Project Engineer, Lori Young, explained the project in detail and also presented maps of the proposed improvements. She stated the following: Town of Trafalgar's Wastewater Improvements Project will service 1,154 beneficiaries, 66% LMI. Project is a full-system rehabilitation/expansion of the Wastewater Treatment Plant (WWTP), lift stations, manholes and force main pipe. Town is anticipating IDEM Early Warning Sewer ban could be issued by 2022 if improvements are not made as WWTP in 2019 and 2020 was operating over 90% designed flow capacity. IOCRA project is vital to avoid IDEM Early Warning Sewer ban. Scope of work, includes no ineligible items, consists of: (1) WWTP EXPANSION & IMPROVEMENTS:(a)Expansion: earthwork/grading to prepare ground for installation of new structures/allow surface water to flow away from new structures, headworks will be upgraded with new mechanical fine screen and grit removal system, to prepare for conversion of the existing oxidation ditch from a sequence batch reactor to conventional oxidation ditch -200 LF of 12-in. PVC piping will be installed from headworks to oxidation ditch, after oxidation ditch is converted - 2 new clarifiers, a new sludge return lift station, UV disinfection system and 2 aerobic sludge digesters will be installed along with site piping/associated electrical, install a

remote monitoring unit (RMU) on the new sludge return lift station and finalize with site restoration (seed, straw, fertilizer), (b) Lab Improvements: remodel/re-configuration of lab to improve lab space includes: new cabinets, additional lab space bench, painting, re-wiring electrical/LED lighting, plumbing to accommodate newly installed lab sink/drains and HVAC and (c) Security & Safety: install 4 outdoor weatherproof security cameras along with associated electrical and a monitoring system with capability of recording and install safety grading at hatch of WWTP's lift station providing fall protection.

2) LIFT STATION IMPROVEMENTS: (a) Spring Lake Lift Station: install new level transducer with radar level measuring device, programmable logic controller (PLC) and variable frequency drive (VFD) on one pump, base elbows, 50 LF of pump discharge piping, 2 check valves, two gate valves and swirl adapter on influent pipe to reduce grease accumulation in the wet well, install RMU (alarms/controls) and safety grating inside the wet well hatch providing fall protection, (b) Pearl Street Lift Station: rehab wet well by pouring new concrete interior and applying protective coating to prevent future erosion of concrete/piping from hydrogen sulfide gas, install RMU (alarms/controls) and safety grating inside the wet well hatch providing fall protection and (c) Lancaster Lift Station: install RMU (alarms/controls) and safety grating inside the wet well hatch providing fall protection,

(3) MANHOLE REHABILITATION: rehab 10 existing interior manholes (grouting, sealant, manhole frame/risers, interior coatings) and upgrade 3 additional existing manhole frames/castings and (4) FORCE MAIN REHABILITATION: erosion control in areas of construction to prevent sediment from entering infrastructure/natural drainage ways, remove 1,200 LF of existing 6-in. force main pipe where force main pipe is exposed due to creek being washed out/eroded, moved over, install bypass pumping to be able to install new force main pipe to keep the system going during installation of new force main pipe, install 1,200 LF of new 6-in. force main pipe along with pipe fittings/connections (pipe to be directionally drilled underneath creek at a depth deep enough so pipe will remain in place) and finalize with site restoration (seed, straw, fertilizer).

Jill Curry from Curry & Associates then went over the outcomes of the project as follows: (1) Ensure system operating at 47% design capacity with WWTP expansion/improvements to not violate IDEM NPDES Permit; 2020 IDEM inspection report found facility was experiencing 1/1 causing WWTP to operate above 100% design capacity several months during prior 12-mo. period, (2) Increase infrastructure security 90% by installing 4 outdoor weatherproof security cameras/monitoring system at WWTP recommended by EPA; 1 existing gate/fencing, 0 camera monitoring going to 1 monitoring units (RMU); each station has local audible/visual alarms/no remote monitoring-alarm systems going to RMUs at all 4 lift stations to alert for pump/power failure/high water/temperature overload/pump run times; 2019/2020 total of 4 overflows could have been prevented with early alarm notification, (4) Decrease possibility of Town worker serious injury/death 95% and decrease 50% man-hours by installing safety grading at 4 lift station hatches/fall protection into 30-ft. deep wet well; during weekly maintenance/emergencies with no safety netting, 2 workers required to respond to address issues going to safety

grading, 1 worker - 212 man-hrs. to 106, (5) Eliminate 40% system failure/100% creek, natural waterway contamination with rehab of system's oldest lift station located within 15 feet of Stott's Creek ; 51-yr. old/Pearl St. lift station serves 40% entire system and structurally not sound as hydrogen sulfide gas has been/is severely corroding the concrete structure (flaking/deteriorating), piping and exposing rebar; severe pipe corrosion caused major leaks resulting pumps to run 30% longer -5 to 7 hr./day typical pump run times to 8 to 10; if concrete/pumps fail, raw sewage could leak into ground which will go directly into creek, (6) Address 7% of system's worst manholes to reduce system inflow/infiltration (1/1) 43%; 2017 inspection/Sept. 2020 smoke testing - 189 manholes revealed 30 deteriorated, have 1/1 issues; 30 identified -13 of worst to be addressed by rehab/upgrading with 17 Town addressing on their own as only slight issues and (7) Decrease full-system failure 100% with force main pipe rehabilitation as existing pipe is exposed due to creek erosion; 2 sections existing pipe/pipe exposed in both locations; 2018-2020 total of 3 times Town has had to stabilize creek bank/pipe (install concrete/concrete barriers/rip rap to prevent further erosion/pipe movement); pipe failure would result in wastewater infiltrating into creek. j. Jill Curry stated that the preliminary engineering looked a past, current and projected growth for the Town. She stated that it is estimated by 2022 for the wastewater treatment plant (WWTP) to be at 93.5% capacity and by 2025 at 100.9% capacity -basically no capacity will be left at the WWTP. She stated that projected growth of the Town as well as the looming sewer ban IDEM could place on the Town - now is the time to complete this project. She stated that the WWTP was constructed 20-years ago at 200,000 gallons per day capacity and the past 2-years the plant has been at essentially 90% capacity. She stated that this project will expand the WWTP from 200,000 gallons per day to 400,000 gallons per day to meet current and future demand. k. Kristy Jerrell then opened the public hearing for comments and questions. Town Council President, Jessica Jones, stated that the IOCRA project is the Town's TOP number 1 priority as the Town is on the verge of receiving and early warning sewer ban from IDEM if these improvements are not completed. She stated that it is time to make these improvements based on IDEM standards to have the best possible wastewater service for the residents. m. Kristy Jerrell asked the Utility Superintendent, Lee Rodgers, about any partnerships with other neighboring communities for assisting with wastewater issue. n. Utility Superintendent Lee Rodgers stated that for past 5+ years, Trafalgar has been partnering with the Town of Morgantown, a neighboring community, utilizing Morgantown's sewer cameras to locate leaks/blockages in lines and sewer locating equipment to locate lines. In 2018, Trafalgar's manhole close to the Spring Lake lift station overflowed into Spring Lake Estates subdivision's lake dumping raw sewage into the lake; 2 Morgantown Laborers/2 Morgan County Jail inmates working for Morgantown at the time assisted Trafalgar for 7 hours with cleanup of debris/dead fish. He stated that in January and June 2021, that he assisted Morgantown with a water leaks totaling 8 hours of assistance. o. Resident Kathy Cruz asked about rates and how much rates would have to raise with this project. p. Jill Curry stated that worst case scenario would be rates

would have to raise from \$58.99 up to \$97 that would be if SRF did not provide any grant and only loan. She stated that with IOCRA, a \$2 million dollar SRF grant and the rest SRF loan - residents would see roughly \$65 to \$70 wastewater rates. She stated that this project has come in good timing and that there is a lot of money for infrastructure coming and chances to get the \$2 million dollar SRF grant is good. q. Resident Rita Richardson stated to not squeeze the lemon so tight that the residents cannot afford to live as she was speaking about high utility rates. r. Kristy Jerrell asked if there were any further comments that the public would like to make or questions about the grant application or the grant process. Adjournment: There being no further comments/questions Town Council President, Jessica Jones, adjourned the meeting at approximately 7:46 pm. Kristy Jerrell, Grant Administrator Recorder (See attached Third Party Authorization)

4. Water-Wastewater Credits/Utility Billing

a. Utility Office Monthly Report - For Review

b. Sewer Credit Request

Minutes:

The sewer request for Allen & Joyce Rodgers will be held until the July meeting, they were not present.

c. May Billing Summary - For Review

d. May Cash Drawer Balance - For Review

5. Consent Minutes- For Approval

a. TC Minutes - April 15, 2021 - Held from May 20th

Minutes:

Steve Scott made a motion to accept the minutes from April 15, 2021, Jeff Eisenmenger 2nd.

Vote results:

Ayes: 4 / Nays: 0

b. TC Special Minutes April 21, 2021 - Held from May 20th

Minutes:

Jeff Eisenmenger made a motion to accept the Special meeting minutes from April 21, 2021, Jessica Jones 2nd.

Vote results:

Ayes: 4 / Nays: 0

c. TC Minutes - May 20, 2021

Minutes:

Jessica Jones made a motion to accept the minutes from May 20, 2021, Jeff Eisenmenger 2nd. Steve Scott abstained from voting since he was not at the meeting.

Vote results:

Ayes: 3 / Nays: 0

6. Clerk Treasurer

a. APV Register- For Approval

Minutes:

Jessica Jones made a motion to approve the APV Register for May in the amount of \$110,662.92, Steve Scott 2nd.

Vote results:

Ayes: 4 / Nays: 0

b. May Dockets - For Review

7. New Business

a. Amy Haupert - Midwest Deferred Comp. Specialists, LLC. & Josh Miller Edward Jones

Minutes:

Bill Barrett stated the current 457 retirement plan is under consideration due to checks coming back and not getting credited to accounts and possibly taking a look at another broker that would be more suitable. Amy Haupert and Josh Miller gave a presentation on a 457 proposal for the workplace retirement plan with investment options and plan design . Jeff Eisenmenger would like to address these issues at possibly a Executive Session for further discussion.

b. Complaints

Minutes:

Complaint No. 1: A nuisance letter was sent from the Town on 6/3. The owner from the property is under the impression that the zoning on the property is agricultural and tall grass is allowed, Jeff Eisenmenger referred to the Town zoning map which shows the property is zoned commercial. Jeff Eisenmenger did not think the property was in violation of the sign ordinance. The Town will have the property re-checked for the nuisance violation to ensure that it has been corrected. The Town Council would like to get more information on hiring the Compliance Officer from New Whiteland possibly as PRN to handle complaints. Complaint No. 2: Complainant Rita Richardson has a concern over speeding on Town St., she has a petition with homeowners in the area that are also concerned. Lee Rodgers stated they are working on placing Children In Play signs up, currently they are waiting on locate of fiber cable to be able to place the signs. Complaint No. 3: The Council suggested that when the resident smelled the burning that they contact the fire department. Complaint No. 4: The Town will send a nuisance letter to the property owner. Complaint No. 5:: The Town will send a nuisance letter to the property owner. Complaint No. 6: The Town did send a nuisance letter on 6/3. Bill Barrett will send a letter to the resident. Complaint No. 7: The Town will send a zoning violation letter to the property at 304 W Ohio St, for residence in an RV. A nuisance letter was sent to the property at 202 S Illinois St, on 6/3, 2 more complaints have been submitted on the property; large rats and mice are being breed, sewage is being disposed of on property. Lee Rodgers suggested reaching back to the health department

to further investigate the property. Bill Barrett will pursue sending a public nuisance letter to the property owner and move ahead with all tools available. Complaint No. 8: A suggestion was sent to have spraying or fogging for mosquito's in the Town. Lee Rodgers will forward the report he sent on the progress of the previous nuisance letters sent 6/3, Bill will handle moving forward on the complaints that have not been closed.

c. Resolution

Minutes:

Jessica Jones made a motion to adopt Resolution No. 2021-008, Jeff Eisenmenger 2nd.

Vote results:

Ayes: 4 / Nays: 0

d. Trafalgar Youth Committee

Minutes:

Jeff Eisenmenger made a motion to create The Trafalgar Youth Committee, Kyle Siegfred 2nd.

Vote results:

Ayes: 4 / Nays: 0

e. R3 Zoning - Plan Commission

Minutes:

The Planning Commission recommends changing the lot with to 60 ft. minimum for R3 Zoning. Jessica Jones made a motion to adopt the Ordinance presented by the Planning Commission as written on the lot size change for R3, Kyle Siegfred 2nd.

Vote results:

Ayes: 4 / Nays: 0

8. Adoption of Other Business Matters

Minutes:

Jeff Eisenmenger mentioned that we still do not have the contract from John Young. We have not received any invoices for 2019 & 2020 from his office.

9. Old Business

a. Complaint Process - follow up from May 20th

Minutes:

The complaint process was addressed.

b. Parking Ordinance - follow up from May 20th

Minutes:

Bill Barrett will review the Parking Ordinance. The Town will contact the Little League to discuss parking issue on Pearl St and area around the Old School.

c. Trafalgar Clean up Day -follow up from May 20th

Minutes:

Jeff Eisenmenger will check with the owner of the Old School to find out if the parking lot can be used for the roll-off's for the trash clean up day.

d. Lee Rodgers - update on Pearl St to SR 135 Community Crossing Construction Plans

Minutes:

Lee Rodgers has contacted the Engineer to get a updated estimate on the project. We would not be able to apply for the Community Crossing Grant until 2022.

e. Employee Job Descriptions - follow up from May 20th

Minutes:

The Dept.Heads will prepare job description for themselves and employees, then the Council will review those with the Dept. Heads. Jessica Jones will send the Dept. Heads a time limit to have them ready to review.

f. Council Attendance - Council discussion held from May 20th

Minutes:

Procedures have now been put in place to hold meeting electronic, this should help with issues on attendance of Council members.

g. Trafalgar Pointe Streets/Maintenance Bond - held from May 20th

Minutes:

The Town would agree to a maintenance bond but it would be for a very long time with a big number, the streets are in very bad shape.

h. New Officer Contract - follow up from May 20th

Minutes:

Bill Barrett will prepare a proposal for the Town Council to look at.

i. Bulk Water Review - follow up from May 20th

Minutes:

Lee Rodgers contacted 2 Companies regarding a system for bulk haulers it would range between \$10-\$20,000. The current water haulers are based on a honor system. Jeff Eisenmenger stated he disagreed with using the honor system for getting bulk water. Jessica Jones has ask for reports from the utility office. This will be held for further discussion.

j. Ordinance- 2nd Read - Final Adoption

Minutes:

Jeff Eisenmenger made a motion to accept Ordinance 2021-003 2nd read, Steve Scott 2nd.

Vote results:

Ayes: 4 / Nays: 0

10. Department Head Status Report

a. Lee Rodgers - Utility / Street Superintendent

Minutes:

Lee Rodgers gave his monthly report. Lee would like to apply for the 2nd round of the Community Crossing Grant. The 2nd round grant opens July 5th. Jeff Eisenmenger made a motion to allow up to \$40,000 for match for the Community Crossing Grant from the MVH Fund, Jessica Jones 2nd.

Jeff Eisenmenger made a motion to remove the performance bond for the White Oak subdivision, Jessica Jones 2nd.

Lee Rodgers wanted to know the status of the Princes Lakes contract. Jessica Jones stated at the April 15th meeting she was under the impression the Council was approving Roger Young's recommendation for the contract then the Council would approve the contract upon reviewing. No Council members reviewed the contract the night it was presented. Upon reviewing the contract Jessica Jones wanted the daily capacity number to be higher since it was a 20 year contract. Jeff Eisenmenger ask what the length of the contract was at the April 15th meeting, Lee said it was a 5 year contract. The contract is a 20 year contract. Jeff Eisenmenger would like to have a special meeting to discuss the contract, everyone agreed. Jessica Jones will let Donna know when they decide to schedule the meeting.

Vote results:

Ayes: 4 / Nays: 0

b. Chief Charles Roberts - Police

Minutes:

Charles Roberts presented his monthly report. Charles would like to hire a part time Officer Scott Doss, he will schedule a Police Merit Board meeting for approval.

Jeff Eisenmenger made a motion to allow Charles to present the Indemnification Agreement to the Town of Whiteland, Jessica Jones 2nd.

Vote results:

Ayes: 4 / Nays: 0

11. Attorney

Minutes:

Jessica Jones signed the Brown County water agreement.

12. Adjourn

Minutes:

A motion and a second were made to adjourn at 10:52 p.m.
